## SUPPLY CHAIN EXECUTIVE FORUM 2006

### PROGRAM

#### FRIDAY MAY 19, 2006

06:30–08:30	Breakfast
08:30–10:00	Critical issues facing supply chains: A bridge to the future: Everything from 'sustainability' to the search for talent. Creating resilient 'living institution' style supply chains is the goal. Panel Moderator: Mr. Paul McDonald, Executive Director, CEDA
10:00–10:30	Briefing (2) Supply Chain 'Alignment' Research Project
10:30–11:00	Break
11:00–12:00	Private discussion among Executive teams
12:00–12:30	Living Lessons (A review of the day's sessions)
12:30–13:00	Concluding remarks and close
13:00–	Buffet lunch and depart

Please note: this project is subject to change without notice.

#### EXPECTED OUTCOMES

This is not a training program. The aim is to help top management teams identify and work through relevant strategic and supply chain issues to extract previously untapped value.

Each team will develop a deliverable known as the "Agenda for Action". This will provide the basis of any ongoing collaboration between the Centre for Supply Chain Research and each executive team.

We are serious about our role as catalysts for change across supply chains in Asia Pacific.
